

Vietnam Weekly Economic Highlights

Project Title	Vietnam Weekly Economic Highlights
Project Summary	Every week, the ECON department in Hanoi, Vietnam puts out a weekly update on that week's macro economic events and we need help! This weekly "newsletter" gets sent out to over 60 people in various agencies who are interested in the goings on in Vietnam on a macro level.
Country	Vietnam
Agency	Department of State
DoS Office	N/A
Post	HANOI
Section	ECON
Number of Interns	1

Project Description

We are looking for someone who can research 5-6 interesting and pertinent news stories every week to be included into the highlights. Since it is on a macro level, we want to look at statistics on a broad level on topics like trade, the textile industry, foreign investments, economic growth (or lack thereof), exports, banking, budget deficit, credit, energy and oil, infrastructure and so on. We would need this every Thursday by 5pm so that the stories selected can be reviewed. There are many reliable websites to use, such as vietnambreakingnews.com, vietnamnet.vn, vietnamnews.vn. The highlights are important and gives a snapshot into Vietnam's economic trends.

Desired Skills Interests

Additional Information

Once the applicant is selected, you will have the opportunity to also redesign the "look" of the highlights. Right now, it is plain, but very readable for those Blackberry users. We conducted a survey and Blackberry users said

it is important for them to be able to easily read the highlights Any new ideas are welcome. The highlights are important and gives a snapshot into Vietnam's economic trends.
